Professional Activity/Experience (Summary)

With over 16 years of professional experience in web development, I have a proven track record in creating and managing commercial web applications. My expertise lies in the following areas:

- **Backend Development**: Proficient in Laravel, Symfony, CodeIgniter, and native PHP, I have developed and maintained robust and scalable web applications that meet client requirements and industry standards.
- **Frontend Development**: Strong understanding and hands-on experience with HTML, CSS, JavaScript, jQuery, and Vue.js, enabling me to build interactive and responsive user interfaces.
- **Adherence to Standards**: Strictly follow programming standards such as Object-Oriented Programming (OOP), SOLID principles, DRY (Don't Repeat Yourself), and KISS (Keep It Simple, Stupid). Familiar with various design patterns, ensuring the creation of maintainable and efficient codebases.
- **Soft Skills**: Excellent communication skills, adept at multitasking, and a quick learner, always eager to adopt new technologies and methodologies to stay ahead in the ever-evolving tech landscape.

These skills and experiences have equipped me with the ability to handle complex projects efficiently, ensuring timely delivery and high client satisfaction.

Work Experiences

BlueCloud LTD (12-2023 – 05-2024)
Florida/Tampa – America (Remote)
Worldwide Cargo services and solutions
